Aids and adaptations

**Do you struggle to get up the stairs or out of the bath?
Wulvern are here to help!**

Wulvern is committed to making life easier for our customers, we recognise the importance of maximising their independence, improving their quality of life and enabling them to remain in their homes for as long as possible.

Each year our aids and adaptations programme helps hundreds of people by carrying out both minor and major adaptations to their homes. These adaptations enable them to safely remain active and independent in their own homes.

We might be able to help you with things like grab rails, second stair rails and ramps.

professional advice

We work in partnership with an Occupational Therapist from the Local Authority who is based at Wulvern House and works within the active4age team

The Occupational Therapist completes referrals for Wulvern tenants for adaptations to Wulvern properties. She supports and trains Wulvern staff to enable them to carry out assessments for minor adaptations such as grab rails, stair rails, level taps and half steps. Where we have identified a need for a minor adaptation, we aim to complete this work within 5 weeks.

If you require more major adaptations such as ramps, stair lifts, walk in showers, the Occupational Therapist will visit you at home to assess your requirements. The work is then prioritized according to your level of need.

finding alternative solutions

We always make every effort to accommodate your wishes and adapt the home that you are currently living in. Sometimes this is not always physically possible, or indeed the best option for you. If this is the case we might suggest you move to a property that is better equipped to meet your needs.

We have a range of housing options available and will happily discuss these with you and your family to ensure we reach a solution which you are happy and confident with.

If you think that our aids and adaptations programme may be able to help you, and you are currently living in a Wulvern property then please contact us on 01270 506200.
